

five year warranty

At Canton Optics USA, we don't believe in planned obsolescence—we believe in making products that last. That's why we offer an **unmatched 5-year limited warranty**, far exceeding the industry-standard 1-year coverage. With us, you're not just getting a warranty; you're getting **guaranteed part availability for five years**, ensuring that your device stays fully functional instead of being pushed toward an unnecessary upgrade.

Unlike many manufacturers that force you into buying the next-gen model, **we're committed to keeping your device working for you**. If something goes wrong, you won't be stuck waiting for overseas repairs—we provide **service and repairs right here in the U.S.**, with fast turnaround times to get you back up and running as quickly as possible.

Your investment should last, and with Canton Optics USA, it will. **Reliable products, real support, and a company that stands behind its technology**—that's the Canton difference.
